

# 900 Series COLPOSCOPES

Seiler Precision Microscopes is proud to offer the 900 Series Colposcopes. These colposcopes have state-of-the-art optics, exceptionally bright illumination, and a power supply with (2) ports for the fiber optic cable.

Seiler is a name you can trust for all of your microscopic needs. We have been doing this since 1945. Our well-trained team of microscope consultants can assist you in determining which microscope is best for you. Our service department offers a full-range of repairs and is also available to answer any technical questions that you might have. Take advantage of our great service and very competitive prices and you'll see why Seiler is a name you can trust.

# 935

## PRODUCT #

30935-3

## DESCRIPTION

Model 935 3-Step Colposcope

Includes the following:

- Smooth three-step turret magnification changer.
- 300mm working distance objective lens offering 3x, 7x, and 17x magnifications. Optional magnifications/objective lens combinations are available.
- Widefield 12.5x eyepieces with diopter locks and fold-down rubber eyecups for eyeglass wearers.
- Straight binocular head f=160.
- Fan cooled, \*\*dual-port variable fiber optic coaxial illumination with 15V 150W lamp (bulb EFR 64634).  
\*\*should a lamp fail during an examination, the dual-port feature allows a quick change from one lamp to another resulting in an uninterrupted procedure.
- Maximum height from floor to objective lens – 46 inches.
- Minimum height – 34 inches.
- Green filter in selector knob.
- Small diameter base on roller castors with adjustable vertical post height.
- Spare lamp, dust cover and instruction manual.
- Video accessories available (see back page).
